John England COLOURS 2021

FORGE AHEAD – JUMP OUT OF THE BOX – MOVE BEYOND

There is a smart new breed of people coming to prominence in today's society. They are the weekenders, the lovers, explorers, adventurers and dreamers. People with big hearts and wide eyes. Those who are independent, yet united by a love of our planet and its populations. They are those who turn their backs on the 'disposable or fast society', searching out responsibly made, quality items, sustainably manufactured — without sacrificing comfort, ease and design. In short, everyone, most likely that also means you!

John England design and make sustainable planet friendly fabrics and products that support, enhance, bring pleasure and are affordable to everyday life or in other words in a way that makes sense to the people who live on our planet.

FINISHES

All fabrics are available in the following finishes; Loom state, soft washed, Mill pressed, PFP, Pre- shrunk, etc.

The standard finish is Soft Wash.

Please note colours shown may vary when viewed on different screens.

We strongly recommend requesting a swatch before buying. The first 5 swatches are free in the UK and Ireland. Should you need more swatches or be located outside the UK and Ireland there may be a small charge.

NEW GLOBAL TRIBE :

John England have observed the world for generations and have seen the evolution of a new type of person... .. an exciting new tribe if you will.

These modern individuals are explorers, trekkers, professionals, the suits, fashionistas, adventurers, dreamers and shoppers. They are independent, share a respect for the environment, different cultures and are young at heart.

They are daunted by the ecological tasks facing our planet, but they are the triers, those prepared to take responsibility for our children's future.

John England are dedicated to designing with you in mind, reflecting and learning from the needs of this

Feel free to phone, email, browse or pop-in* and get a warm welcome from Our tribe;
